

CONFERENCE PROGRAM

Theme: LEADERSHIP: SHARING THE EXCELLENCE

TIME	BALLROOM 3	BALLROOM 4
08:30–10:00 (1.5hrs)	<p>Post Grad Course: Liver Presentation time: 17 min, 15+2 Theme: Comprehensive management for HCC : Basic considerations</p> <p>1. Essential anatomy for anatomical liver resection, <i>Shigeru Marubashi, M.D. (Japan)</i> 2. Preoperative evaluation and adjunct procedures for the best surgical outcome, <i>Feng Shen, M.D. (China)</i> 3. Surgical technique for open anatomical liver resection, <i>Dai Wing Chiu, M.D. (Hong Kong, China)</i> 4. Surgical technique for laparoscopic anatomical liver resection <i>Jai Young CHO, M.D. (Korea)</i> 5. Diagnosis and management of post-hepatectomy liver failure, <i>Hye-Sung Jo, M.D. (Korea)</i></p>	<p>Post Grad Course: Biliary Presentation time: 17 min, 15+2 Theme: Perihilar cholangiocarcinoma</p> <p>1. Pathogenesis of perihilar cholangiocarcinoma: From cell origin to malignant tumor, <i>Yasuni Nakanuma, M.D. (Japan)</i> 2. Diagnostic studies and interpretation: from radiological point to surgical aspect, <i>Kulyada Eurboonyanun, M.D. (Thailand)</i> 3. Surgical anatomy: Implementation for perihilar cholangiocarcinoma surgery, <i>Jae Hoon LEE, M.D. (Korea)</i> 4. Pre-operative management in perihilar cholangiocarcinoma, <i>Hauke Lang, M.D. (Germany)</i> 5. Resectability assessment of perihilar cholangiocarcinoma: Resectable, borderline resectable and unresectable?, <i>Itaru Endo, M.D. (Japan)</i></p>
10:00–10:30 (30 min)	Coffee Break	
10:30–12:00 (1.5hrs)	<p>Post Grad Course: Liver Presentation time: 17 min, 15+2 Theme: Comprehensive management for HCC : Complex considerations</p> <p>1. Surgery for large HCC, <i>Yongyut Sirivatanauksorn, M.D. (Thailand)</i> 2. Surgery for multifocal HCC, <i>Chao-Liu Dai, M.D. (China)</i> 3. Surgery for HCC with BDTT, <i>Asara Thepbunchonchai, M.D. (Thailand)</i> 4. Surgery for HCC with major vascular invasion, <i>Lun-Xiu Qin, M.D. (China)</i> 5. Robotic liver resection: standardized procedures, <i>Charles Chung-Wei LIN, M.D. (Taiwan)</i></p>	<p>Post Grad Course: Biliary Presentation time: 17 min, 15+2 Theme: Perihilar cholangiocarcinoma</p> <p>1. Overview of surgical techniques for perihilar cholangiocarcinoma surgery: hepatic trisectionectomy, <i>Ebata Tomoki, M.D. (Japan)</i> 2. Hepatopancreaticoduodenectomy in cholangiocarcinoma: techniques and outcomes, <i>Ta-Sen Yeh, M.D. (Taiwan)</i> 3. Resection margin of perihilar cholangiocarcinoma: type, width and management, <i>Sae Byeol CHOI, M.D. (Korea)</i> 4. Vascular resection and reconstruction: techniques, feasibility and outcomes, <i>Attapol Titapun, M.D. (Thailand)</i> 5. Adjuvant treatment of perihilar cholangiocarcinoma, <i>Chaiyut Charoentum, M.D. (Thailand)</i></p>
12:00–13:00 (1hrs)	Lunch Symposium 1	Lunch Symposium 2
13:00–14:30 (1.5hrs)	<p>Post Grad Course: Pancreas Presentation time: 17 min, 15+2 Theme: The principle in pancreatectomy</p> <p>1. Surgical anatomy and complexity in pancreatectomy, <i>Paleswan Joshi Lakhey, M.D. (Nepal)</i> 2. Principal of surgery in Pancreatic Neuroendocrine Tumours and Cystic tumours of pancreas, <i>Adrian Chiow, M.D. (Singapore)</i> 3. Tailoring distal pancreatectomy for left sided pancreatic lesions, <i>Koh Peng Soon, M.D. (Malaysia)</i> 4. Tip and trick of pancreatojejunostomy, <i>Shailesh V. Shrikhande, M.D.(India)</i> 5. Tip and trick of pancreatogastrostomy, <i>Billy James G. Uy, M.D. (Philippines)</i></p>	<p>The First International Meeting on IPNB</p> <p>1. History of IPNB: From IPMN-P to IPNB, <i>Yasuni Nakanuma, M.D. (Japan)</i> (20 min) 2. Spectrum of IPNB : Embracing the contentious perspective, <i>Volkan Adsay, M.D. (Türkiye)</i> (20 min) 3. Radiographic diagnosis of IPNB, <i>Jeong Min Lee, M.D. (Korea)</i> (25 min) 4. Role of endoscopy on IPNB, <i>Jong Ho Moon, M.D. (Korea)</i> (25 min)</p>
14:30–15:00 (30 min)	Coffee Break	
15:00–16:30 (1.5hrs)	<p>Post Grad Course: Pancreas Presentation time: 17 min, 15+2 Theme: The principle in pancreatectomy</p> <p>1. State of the art in PD and robotic surgery, <i>Manish Bhandare , M.D. (India)</i> 2. Conversion surgery after multidisciplinary treatment in patients with locally advanced unresectable pancreatic cancer, <i>Tsutomu Fujii, M.D. (Japan)</i> 3. Curative resection after carbon iron radiotherapy (CIRT) for initial locally-advanced pancreatic cancer, <i>Yi-Ming Shyr, M.D. (Taiwan)</i> 4. ERAS Protocol in pancreatic surgery, <i>Worakitti Lapisatepan, M.D. (Thailand)</i> 5. Post pancreatectomy complication, <i>Warakorn Jaseanchiun, M.D. (Thailand)</i></p>	<p>IPNB Consensus Meeting</p> <p>1. General treatment planning for IPNB, <i>Jin Young Jang, M.D. (Korea)</i> (20 min) 2. How to deal with the difficult & unique situations in IPNB, <i>Keiichi Kubota, M.D. (Japan)</i> (20 min) 3. International Consensus Guidelines for Management of IPNB, <i>Vor Luvira, M.D. (Thailand), Jin Young Jang, M.D. (Korea), Keiichi Kubota, M.D. (Japan)</i> (Panelist, 50 min)</p>
17:00–19:00	Welcome Reception	

<div> <div> <div>DAY 3: THURSDAY</div> <div>30th OCTOBER 2025</div> </div> <div> <div>THE 10th BIENNIAL CONGRESS OF</div> <div>THE ASIAN-PACIFIC HEPATO-PANCREATO-BILIARY ASSOCIATION 2025</div> </div> <div> </div> </div>							
<div> <div>CONFERENCE PROGRAM</div> <div>Theme: LEADERSHIP: SHARING THE EXCELLENCE</div> </div>							
TIME	MR110 ABC	BALLROOM 3	BALLROOM 4	MR109 AB	MR 109 CD	MR109 EF	MR109 GH
07:30 - 08:30 (1 hr)				Meet the experts 1: Biliary Presentation time: 30 min, 20+10 Theme: Perihilar cholangiocarcinoma 1. Revising the initially unresectable scenario with conversion resection, <i>Ebata Tomoki, M.D. (Japan)</i> 2. TBC, <i>Hauke Lang, M.D. (Germany)</i>	Meet the experts 2: Pancreas Presentation time: 30 min, 20+10 Theme: The evolution and tailor approach in pancreatic surgery 1. TBC, <i>Marco Del Chiaro, M.D. (USA)</i> 2. TBC, <i>Wen-hui Lou, M.D. (China)</i>	Meet the experts 3: Liver Presentation time: 30 min, 20+10 Theme: Comprehensive management of colorectal cancer liver metastases 1. Cytoreductive surgery for colorectal liver metastases: is it worthwhile?, <i>Rene Adam, M.D. (France)</i> 2. TBC, <i>Jean-Nicolas Vauthey, M.D. (USA)</i>	Meet the experts 4: Miscellaneous Presentation time: 30 min, 20+10 Theme: How to live a successful life as a HPB surgeon 1. Pierre A Clavien, M.D. (Switzerland) 2. Timothy M Pawlik, M.D. (USA)
08:30 – 09:00	Morning Break						
09:00 10:30 (1.5 hrs)	Master VDO 1: Biliary Presentation time: 14 min, 12+2 Theme: Mastery of surgery in biliary tract cancer 1. TBC, <i>Hiroyuki Sakurai, M.D. (Japan)</i> 2. Combined endoscopic and robotic approach for Mirizzi Syndrome, <i>LEE Kit Fai, M.D. (Hong Kong, China)</i> 3. Expanding Resectability in the Combined Resection and Reconstruction of Hepatic Vessels in Perihilar Cholangiocarcinoma, <i>Chen Po-Da, M.D. (Taiwan)</i> 4. Total laparoscopic perihilar resection, <i>Tharatip Srisuk, M.D. (Thailand)</i> 5. Left trisectionectomy with or without vascular reconstruction for Hilar bile duct cancer, <i>Deok-Bog Moon, M.D. (Korea)</i> 6. ICG fluorescence guided lymphadenectomy for intrahepatic cholangiocarcinoma: from regional to sentinel lymph nodes resection, <i>Xiaoying Wang, M.D. (China)</i>	Master VDO 2: Liver & LT Presentation time: 14 min, 12+2 Theme: Mastering of surgical technique in minimally invasive liver surgery 1. Laparoscopic resection of perihilar cholangiocarcinoma <i>Kuo-Hsin CHEN, M.D. (Taiwan)</i> 2. What are true benefits of MIS hepatectomy? , <i>Goro Honda, M.D. (Japan)</i> 3. TBC, <i>Rawisak Chanwat, M.D. (Thailand)</i> 4. How we developed laparoscopic right and left donor hepatectomy in HPB - Liver Transplant center, <i>Tran Cong Duy Long, M.D. (Vietnam)</i> 5. Surgical Techniques for Robotic Donor Hepatectomy, <i>Yao Ming Wu, M.D. (Taiwan)</i> 6. Minimally Invasive Living Donor Liver Transplantation, <i>Kyungsuk SUH, M.D. (Korea)</i>	Master VDO 3: Pancreas Presentation time: 14 min, 12+2 Theme: Mastering of surgical technique in pancreatic surgery 1. Precision anatomy for MIS in pancreatic surgery, <i>Yuichi Nagakawa, M.D. (Japan)</i> 2. Laparoscopic pancreatoduodenectomy, How I do it?, <i>Shin-E Wang, M.D. (Taiwan)</i> 3. How to perform for effective approach in robotic PD , <i>Jae Hoon Lee, M.D. (Korea)</i> 4. Robotic Pancreatoduodenectomy, <i>Wipawee Inthasotti, M.D. (Thailand)</i> 5. Pancreas Preserving Duodenectomy, <i>Horacio J. Asbun, M.D. (USA)</i> 6. Laparoscopic pancreatoduodenectomy, The pancreatojejunostomy tip and trick <i>Rapheephat Tanompetsanga, M.D. (Thailand)</i>	Symposium A4: LT Presentation time: 14 min, 12+2 Theme: Overcoming Hurdles in Pediatric Liver Transplantation 1. Enhancing Long-Term Outcomes in Pediatric LDLT: Progress and Future Directions, <i>Qiang Xia, M.D., (China)</i> 2. Perfect Fit: Selecting the Ideal Liver Graft Size in Pediatric LDLT, <i>Mureo Kasahara, M.D. (Japan)</i> 3. Mastering Liver Graft Implantation in Pediatric LDLT: Essential Tips and Tricks, <i>Bunthoon Nonthasoot, M.D. (Thailand)</i> 4. Outcomes of splitting DDLT vs LDLT in pediatric liver transplantation, <i>Suk Kyun Hong M.D. (Korea)</i> 5. Revolutionizing Pediatric LT: The Role of Normothermic Machine Perfusion in Liver Splitting, <i>Carlo Pulitano, M.D. (Australia)</i> 6. Strategies for Managing Vascular Complications in Pediatric LDLT, <i>Toar JM Lalisang, M.D. (Indonesia)</i>	Short VDO 3 10 speakers (6+2)	Mini-Oral 7 10 speakers (6+2)	Mini-Oral 8 10 speakers (6+2)
10:30 – 11:00	Coffee Poster						
11:00-12:30 (1.5 hrs)	Keynote Lecture 4: Biliary Presentation time: 17 min, 15+2 Theme: Intrahepatic cholangiocarcinoma 1. Genomic Profiling in Intrahepatic Cholangiocarcinoma: Unlocking the Potential of Precision Medicine, <i>John Bridgewater, M.D. (United Kingdom)</i> 2. Management of Intrahepatic Cholangiocarcinoma: Updates in Surgical and Medical Therapy, <i>Timothy Pawlik, M.D.</i> 3. Role of Lymphadenectomy in Intrahepatic Cholangiocarcinoma: Extent, Techniques, and Prognostic Value, <i>P Jagannath, M.D. (India)</i> 4. Pay attention to the study of metabolic dysfunction-associated fatty liver disease related intrahepatic cholangiocarcinoma, <i>Zhao-hui Tang, M.D. (China)</i> 5. Cholangiocarcinoma in Thailand: Prevention, Surveillance and Outcome, <i>Attapol Titapun, M.D. (Thailand)</i>	Keynote Lecture 5: Liver & LT Presentation time: 17 min, 15+2 Theme: Curative treatment for advanced liver cancer (colorectal cancer liver metastases) 1. Scientific hepatectomy for HCC, <i>Zhi -yong Huang, M.D. (China)</i> 2. Curative treatments in advanced hepatocellular carcinoma, <i>Hui-Chuan Sun, M.D. (China)</i> 3. Liver transplantation for colorectal liver metastases : a change in practice, <i>Rene Adam, M.D. (France)</i> 4. Ultra -low GRWR graft in adult LDLT, <i>Mohamed Rela, M.D. (India)</i> 5. Liver machine perfusion: future of ex situ liver regeneration, <i>Pierre A Clavien, M.D. (Switzerland)</i>	Keynote Lecture 6: Pancreas Presentation time: 17 min, 15+2 Theme: Currently approach, novel surgical technique and systemic treatment in pancreatic ductal adenocarcinoma 1. Standardizing Laparoscopic Surgery Techniques for Pancreatic Cancer, <i>Yoo-Seok Yoon, M.D. (Korea)</i> 2. Current Status of Multidisciplinary Approach for Pancreatic Cancer, <i>Yosuke Inoue, M.D. (Japan)</i> 3. The key points of Chen's pancreatojejunostomy technique, <i>Xiao Ping Chen, M.D. (China)</i> 4. IRE in PDAC, <i>Kai-Wen Haug, M.D. (Taiwan)</i> 5. TBC, <i>Marco Del Chiaro, M.D. (USA)</i>	Symposium A5: Miscellaneous Presentation time: 14 min, 12+2 Theme: Peri-operative care in HPB and liver transplantation 1. Prehabilitation for Patient with Pancreaticoduodenectomy, <i>Sang Jae Park, M.D. (Korea)</i> 2. Nutritional Support before/after Pancreaticoduodenectomy, <i>Joon Seong Park, M.D. (Korea)</i> 3. Hepatic Steatosis after Pancreatectomy, <i>Masafumi Nakanuma, M.D. (Japan)</i> 4. ERAS in Liver Transplantation, <i>Chutwichai Tovikkai, M.D. (Thailand)</i> 5. Nutritional Support in Liver Transplantation, <i>Toar JM Lalisang, M.D. (Indonesia)</i> 6. Perioperative Care and Sepsis Management in Liver Transplantation, <i>Jizhou Wang, M.D. (China)</i>	Short VDO 4 10 speakers (6+2)	MiniOral 9 10 speakers (6+2)	MiniOral 10 10 speakers (6+2)
12:30-13:30	Lunch Symposium 6		Lunch Symposium 8				
13:30-15:00 (1.5 hrs)	Symposium A6: Biliary Presentation time: 14 min, 12+2 Theme: Benign biliary disease and miscellaneous of biliary tract 1. Update Management of Choledochal cysts, <i>Pholasith Sangsarestedt, M.D. (Thailand)</i> 2. Biliary Cystic Lesion of Liver; Classification and Management, <i>Sudeep Shah, M.D. (India)</i> 3. AI Assisted Cholecystectomy, <i>Yoshihiko Tashiro, M.D. (Japan)</i> 4. The role of ERCP and EUS in managing benign biliary tract disease specifically on BDI and Neo Bile Duct creation, <i>Ray Sarmiento, M.D. (Philippines)</i> 5. Surgical Decision-Making in Gallbladder Polyps: Optimizing Resection Strategies for Better Outcomes, <i>Nagesh Gouda, M.D. (India)</i> 6. Nontechnical skill in biliary surgery, <i>Adianto Nugroho, M.D. (Indonesia)</i>	Symposium A7: LT Presentation time: 14 min, 12+2 Theme: Navigating Complexities in Adult LDLT: Tackling the Toughest Challenges 1. Mastering the Transition from Open to Minimally Invasive in LDLT Recipient, <i>Kwang-Woong Lee, M.D. (Korea)</i> 2. Starting Strong: Boosting Adult LDLT Success in Low -Volume Centers, <i>Sunhawit Lunnungssee, M.D. (Thailand)</i> 3. Expert Tips for Managing Large Polycystic Liver Disease in LDLT, <i>LE Van Thanh, M.D. (Vietnam)</i> 4. Selecting the Ideal Candidate: LDLT for HCC with Macro-Vascular Invasion, <i>Cheung Tan To, M.D. (Hong Kong, China)</i> 5. Innovative Approaches for LDLT in Patients with Severe Portal Vein Thrombosis, <i>Prashant Bhargui, M.D. (India)</i> 6. RAPID Procedure: How to Achieve the Best Outcome, <i>Pål-Dag Line, M.D. (Norway)</i>	Symposium A8: Pancreas Presentation time: 14 min, 12+2 Theme: The multidisciplinary approach and techniques in pancreatectomy 1. Radical periarterial dissection could improve the outcomes of PD patients due to pancreatic cancer, <i>Qiang Li, M.D. (China)</i> 2. Multivisceral Resection in Pancreatic Cancer, <i>Jörg Kleeff, M.D. (Germany)</i> 3. Impact of mesopancreas dissection level 3 in robotic pancreaticoduodenectomy for pancreatic head cancer, <i>Shin -E Wang, M.D. (Taiwan)</i> 4. Duodenal sparing Pancreatectomy, <i>Eric Berberabe, M.D. (Philippines)</i> 5. Is developing robotic assisted pancreaticoduodenectomy in non-high volume centre feasible?- What are the evidences, <i>Yoong Boon Koon, M.D. (Malaysia)</i> 6. Spleen preserving distal pancreatectomy with celiac axis resection for pancreatic cancer, <i>Satoshi Hirano, M.D. (Japan)</i>	Symposium A9: Woman in HPB Presentation time: 14 min, 12+2 Theme: Empowering Women in HPB: Building Connections and Advancing Together 1. Insights from the Women in A-PHPBA: Survey Results Revealed, <i>Catherine Teh, M.D. (Philippines)</i> 2. How to overcome the challenges in promoting diversity and equality, <i>Tin Tin Mar, M.D. (Myanmar)</i> 3. Establish mentoring and coaching system for females in A-PHPBA, <i>Paleswan Joshi Lakhey, M.D. (Nepal)</i> 4. Panel discussion -> senior and junior - 30 min	Short VDO 5 10 speakers (6+2)	Mini - Oral 11 10 speakers (6+2)	Mini - Oral 12 10 speakers (6+2)
15:00 – 15:30	Coffee Poster						
15:30-16:30 (1 hrs)	Symposium B2: Biliary Presentation time: 14 min, 12+2 Theme: Mastery of treatment in bile duct injury 1. Towards zero bile duct injury; ministry of health Malaysia perspective, <i>Manisekar K. Subramaniam, M.D. (Malaysia)</i> 2. Bile duct injury; endoscopic management perspective, <i>Thawee Ratanachu-ek, M.D. (Thailand)</i> 3. Bile duct injury; surgical management perspective, <i>Adarsh Chaudhary, M.D. (India)</i> 4. Bile duct injury - non-technical management perspective <i>Vishalkumar G Shelat, M.D. (Singapore)</i>	Symposium B3: Liver Presentation time: 14 min, 12+2 Theme: Complicated issues in liver surgery 1. Splenectomy and devascularization for Non-cirrhotic portal hypertension, <i>Ramesh Singh Bhandari, M.D. (Nepal)</i> 2. Minimally invasive hepatectomy for technically difficult cases, <i>Daisuke Ban, M.D. (Japan)</i> 3. Laparoscopic hepatectomy for Hepatolithiasis, <i>Le Trung Hieu, M.D. (Vietnam)</i> 4. Minimally invasive approaches for repeat hepatectomy or technically difficult cases, <i>Junichi Shindoh, M.D. (Japan)</i>	Symposium B4: Pancreas Presentation time: 14 min, 12+2 Theme: How I Do It in Complex Pancreatic Surgery 1. How to encourage and developing in complex pancreatic surgery?, <i>Adeodatus Yuda Handaya, M.D. (Indonesia)</i> 2. Laparoscopic vs Open Pancreaticoduodenectomy: Is the benefit marginal or major?, <i>Ian Chik, M.D. (Malaysia)</i> 3. Vascular resection in pancreaticoduodenectomy, <i>Ben Loveday, M.D. (Australia)</i> 4. Robotic distal pancreatectomy with spleen preserving: Kimura or Warshaw procedure , <i>Cheng-Ming Peng, M.D. (Taiwan)</i>	Symposium B5: Miscellaneous Presentation time: 14 min, 12+2 Theme: Quality improvement in HPB surgery 1. How to conduct high-quality outcome research in HPB surgery?, <i>Masayuki Ohtsuka, M.D. (Japan)</i> 2. Key Component of HPB Surgery Fellowship Training Program, <i>Yongyut Sirivatanauksorn, M.D. (Thailand)</i> 3. Establishing HPB Surgery in Resource Challenge Setting, <i>S Sivaganesh, M.D. (India)</i> 4. Quality Performance Indicators for Surgical Quality Improvement in HPB Surgery, <i>Jonathan Koea, M.D. (New Zealand)</i>	Best VDO 2 9 speakers (8+2)	Best Oral 3 9 speakers (8+2)	Best Oral 4 9 speakers (8+2)
16:30-17:00 (30 min)	Debate 4: Biliary Presentation time: 14 min, 12+2 Theme: Borderline resectable intrahepatic cholangiocarcinoma: Upfront surgery or Neoadj chemotherapy 1. Neoadj chemotherapy, <i>William Jarnagin, M.D. (USA)</i> 2. Upfront surgery, <i>Masaru Miyazaki, M.D. (Japan)</i>	Debate 5: Liver Presentation time: 14 min, 12+2 Theme: What is the best approach for minimally invasive liver surgery (Robotic vs Laparoscopic liver resection) 1. Robotic liver resection, <i>Gi Hong CHOI, M.D. (Korea)</i> 2. Laparoscopic liver resection, <i>Osamu Itano, M.D. (Japan)</i>	Debate 6: Pancreas Presentation time: 14 min, 12+2 Theme: The minimally invasive surgery in Pancreatoduodenectomy 1. Robotic PD, <i>Manish Bhandare, M.D. (India)</i> 2. Laparoscopic PD, <i>Brian Goh, M.D. (Singapore)</i>	Debate 7: Miscellaneous Presentation time: 14 min, 12+2 Theme: What's the best technique to increase liver remnant? ALPPS vs PVE + HVE 1. ALPPS, an IDEAL story, <i>Pierre A Clavien, M.D. (Switzerland)</i> 2. PVE+HVE side, <i>Jean-Nicolas Vauthey, M.D. (USA)</i>
